

TERMS OF REFERENCE (ToR)

Full-Stack Developer - ICT Department

SOS Children's Villages Palestine

1. Background

SOS Children's Villages Palestine is implementing an ongoing digital transformation to enhance operational efficiency, data protection, accountability, and service delivery across Programs, Finance, Human Resources, ICT, Emergency Response, and Gaza operations. To support these objectives, the organization requires continuous internal development capacity to design, develop, maintain, and rapidly respond to both planned and urgent digital system needs.

2. Position Title

Full-Stack Developer – ICT Department

3. Reporting Line

The service provider shall report directly to the ICT Manager or any other supervisor formally designated by the ICT Department.

4. Purpose of the Role

The purpose of this role is to design, develop, maintain, upgrade, and support digital systems for SOS Children's Villages Palestine, including both planned applications and urgent or unplanned solutions to ensure operational continuity, security, and efficiency.

5. Scope of Work and Responsibilities

5.1 Applications to Be Developed, Completed, or Maintained (2026)

The service provider shall be responsible for developing, completing, upgrading, and maintaining the following systems during the contract period (2026):

1. **Finance Voucher Interface**
2. Incident Management System
3. Procurement Workflow System
4. Emergency Vouchers Application
5. HR Screening and Recruitment Tool
6. Digital Signatures and Approval Workflow
7. Asset Count and Low-Value Asset Management System
8. Stores and Inventory Management Application
9. Yousef Database – Gaza Project

- Additional digital tools required for Gaza operations, emergency response, or donor compliance.

5.2 Urgent and Unplanned Development Needs

In addition to the applications listed above, the service provider shall respond to urgent or unplanned development requests arising from emergency response operations, security incidents, Gaza-related operational constraints, donor or audit requirements, or directives from management or the National Office. Such urgent tasks may temporarily supersede planned development work, as determined by the ICT Manager.

5.3 System Maintenance and Support

Provide continuous system maintenance, bug fixing, performance optimization, functional upgrades, and technical support for all developed systems.

5.4 Security and Data Protection

Ensure that all systems comply with SOS Children's Villages data protection, safeguarding, and information security policies, including secure authentication, role-based access control, and protection of sensitive child, staff, and program data.

5.5 Integrations and Automation

Develop and maintain integrations with internal and external systems, including SMS and messaging platforms, digital signature services, internal databases, and reporting tools.

6. Deliverables

Functional and secure digital applications, documented source code stored in ICT-approved repositories, basic technical documentation and user guidance, and timely delivery of urgent digital solutions.

7. Working Modality and Flexibility

The role requires flexibility in workload, priorities, and availability based on operational, security, and emergency needs, as approved by the ICT Manager.

8. Ownership and Confidentiality

All systems, source code, documentation, and digital assets developed under this ToR are the exclusive property of SOS Children's Villages Palestine. The service provider shall maintain strict confidentiality of all organizational information during and after the contract period.

9. Contract Modality and Payment

This engagement is a contracted services arrangement. The service provider shall receive a monthly payment of 2,800 NIS, subject to satisfactory

performance and confirmation by the ICT Manager, in accordance with SOS Children's Villages Palestine's financial and contractual procedures.

10. Duration

These Terms of Reference shall be effective from 1 January 2026 and remain valid until 31 December 2026, unless extended or terminated earlier in writing in accordance with organizational procedures.

11. Performance Oversight

The ICT Manager shall monitor performance based on the quality and timeliness of deliverables, responsiveness to urgent requests, and compliance with security and data protection requirements.
